How the Scores Were Given

Each criterion scores 1 if it passes and 0 if it does not. A template is approved only when it achieves **5/5** on Prompt Quality, **6/6** on Template Quality, and **5/5** on Output Quality.

• **Test 1 (Prompt Quality):** Checks whether the prompt follows the RACE methodology (Role, Action, Context, Expectation, Input & Rules).
• **Test 2 (Template Quality):** Verifies template structure, variables with allowed values and defaults, fixed safety rules, and safe examples.
• **Test 3 (Output Quality):** Validates output against the Day 4 verification checklist (facts supported, exact numbers/dates, no promises/actions, no repeated sensitive data, complete and natural wording).
